- Administer medication and perform clinical procedures in line with approved protocols
- Maintain high standards of infection control and ensure compliance with clinical guidelines
- Deliver patient-centred care focused on safety, dignity, and quality outcomes

#### Patient Records, Reporting & Compliance

- Accurately capture and maintain digital patient records and consultation notes
- Compile and submit health data, reports, and clinic documentation within required timeframes
- Ensure full compliance with healthcare regulations, ethical standards, and patient confidentiality
- Support general clinic administration and reporting processes

#### Community Health & Outreach Support

- Facilitate community health education and awareness initiatives
- Participate in outreach programmes (mobile clinics, school visits, etc.)
- Conduct patient follow-ups to ensure continuity of care and treatment adherence
- Build trust within the community through compassionate and culturally sensitive care

### **QUALIFICATIONS AND REQUIREMENTS**

- Diploma or Degree in Nursing (Registered Nurse qualification)
- Registration with the relevant Namibian nursing council (or eligibility to register)
- Minimum of 2–3 years' experience in primary healthcare or community health (advantageous)
- Willingness and ability to work in a rural and resource-constrained environment
- Valid driver's licence (advantageous for outreach activities)

### **SKILLS AND COMPETENCIES**

- Strong clinical assessment and patient care abilities
- Sound knowledge of primary healthcare protocols and infection control standards
