

## Internship – Research and Data Analysis at the N/a'an ku sê Foundation

The **N/a'an ku sê Foundation** is a non-profit organization dedicated to the conservation and protection of the natural world, and the empowerment of marginalized communities in Namibia. Our mission is to conserve the landscapes, protect wildlife and improve the lives of the people, fostering a better future through collaboration and innovation. Our work is diverse, ranging from wildlife conservation efforts to community education and healthcare programs.

We are currently seeking a motivated and detail-oriented **research intern** to support our team through **data analysis of existing datasets**. This internship is ideal for students or recent graduates with a background in environmental science or conservation biology with a strong interest in statistics, who are eager to gain hands-on experience in non-profit research and contribute to real-world conservation projects and publications.

The internship is **remote and on a voluntary basis**, with a **minimum duration of 6 months**. Site visits will be possible to meet the team and connect with the fieldwork behind the datasets.

### Key Responsibilities:

- Conduct statistical and descriptive analysis of pre-existing data sets related to conservation and wildlife monitoring.
- Collaborate with research staff to help answer ongoing research questions.
- Assist in the visualization and presentation of findings through reports, charts, and infographics.
- Support the preparation of internal research summaries, external reports and publications.
- Ensure data integrity and uphold ethical research standards throughout the analysis.

### The Ideal Candidate:

- Lives in Windhoek
- Has a strong interest in conservation.
- Has a background in research methods, data analysis, and statistics.
- Can interpret data and communicate findings clearly.
- Is organized, self-motivated, and able to work independently in a remote setting.
- Has excellent written and verbal communication skills in English.

### Benefits:

- Build practical experience in research and data analysis for a non-profit organization.
- Contribute to meaningful conservation effort and publications.
- Flexible working hours and a remote work environment.
- Formal internship with a well-recognized non-profit and a reference letter of upon successful completion.

### How to Apply

Please send your CV and a brief cover letter to [intern@naankuse.com](mailto:intern@naankuse.com) with "**Research Intern**" in the subject line. Applications will be reviewed on a rolling basis.
